A Sustainable and Highly Effective Bionematicide

THE NEW STANDARD FOR SUSTAINABLE AND EFFECTIVE HAS ARRIVED

Make Majestene™ the highly effective and sustainable nematicide in your IPM program. Majestene™ has a novel bacteria-based (non-living) active ingredient that possesses true nematicidal activity against eggs, juveniles and adult nematodes.

MODE OF ACTION

- Bacteria-based active ingredient that kills nematodes
- Posited multi-site mode of action against eggs and juveniles
- Activity by contact, ingestion and exposure
- Internal plant response
- Broad spectrum activity against many nematode species that also affects certain soil arthropods

BEST USE RECOMMENDATIONS

- Apply at seeding for directly-seeded crops
- Apply at transplanting or shortly thereafter for transplanted crops
- Reapply every 3-4 weeks for season-long control

QUALITY AND FLEXIBILITY

- Caution signal word
- Minimal PPE
- 4-Hour REI
- 0-Day PHI, Tolerance Exempt (No MRL's)
- Liquid formulation
- No limit to the number of applications per season
- Product does not need to be refrigerated
- 3 year shelf-life

CROPS

- Corn (sweet)
- Cotton
- Cucumbers
- Soybeans
- Strawberries
- Tomatoes
