

Using Marrone Bio Innovations Products in Small Tank Mixes

MBI is committed to supporting smaller growers, or those who farm limited quantities of multiple crops. For this reason, we present the guidelines below to aid in utilizing our portfolio of products in smaller tank mixes. Each of the presented guidelines is based upon a 1 Gallon finished tank mix size.

PRODUCT	RATE
 	<p>Foliar: 2 Tablespoons / Gallon of Water</p> <p>Soil: 2 Tablespoons / Gallon of Water</p>
 	<p>4 to 6 Tablespoons / Gallon of Water</p>
	<p>2 to 4 Tablespoons / Gallon of Water</p>
	<p>4 Tablespoons / Gallon of Water</p>

Always consult the label first for presence of your specific crop and pest target.
